View of completed model * This model was designed for Papercraft and may differ from the original in some respects.

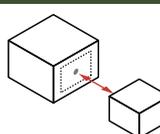

Assembly tip

- Write the number of each part on the reverse side of the part in pencil upon cutting it out, to be sure you can tell which part is which later.
- Before gluing, crease the paper along mountain and valley fold lines. Trace along the folds with a ruler and an exhausted ballpoint pen (out of ink) to get a sharper fold.
- Make sure rounded sections are nice and stiff.

Tools

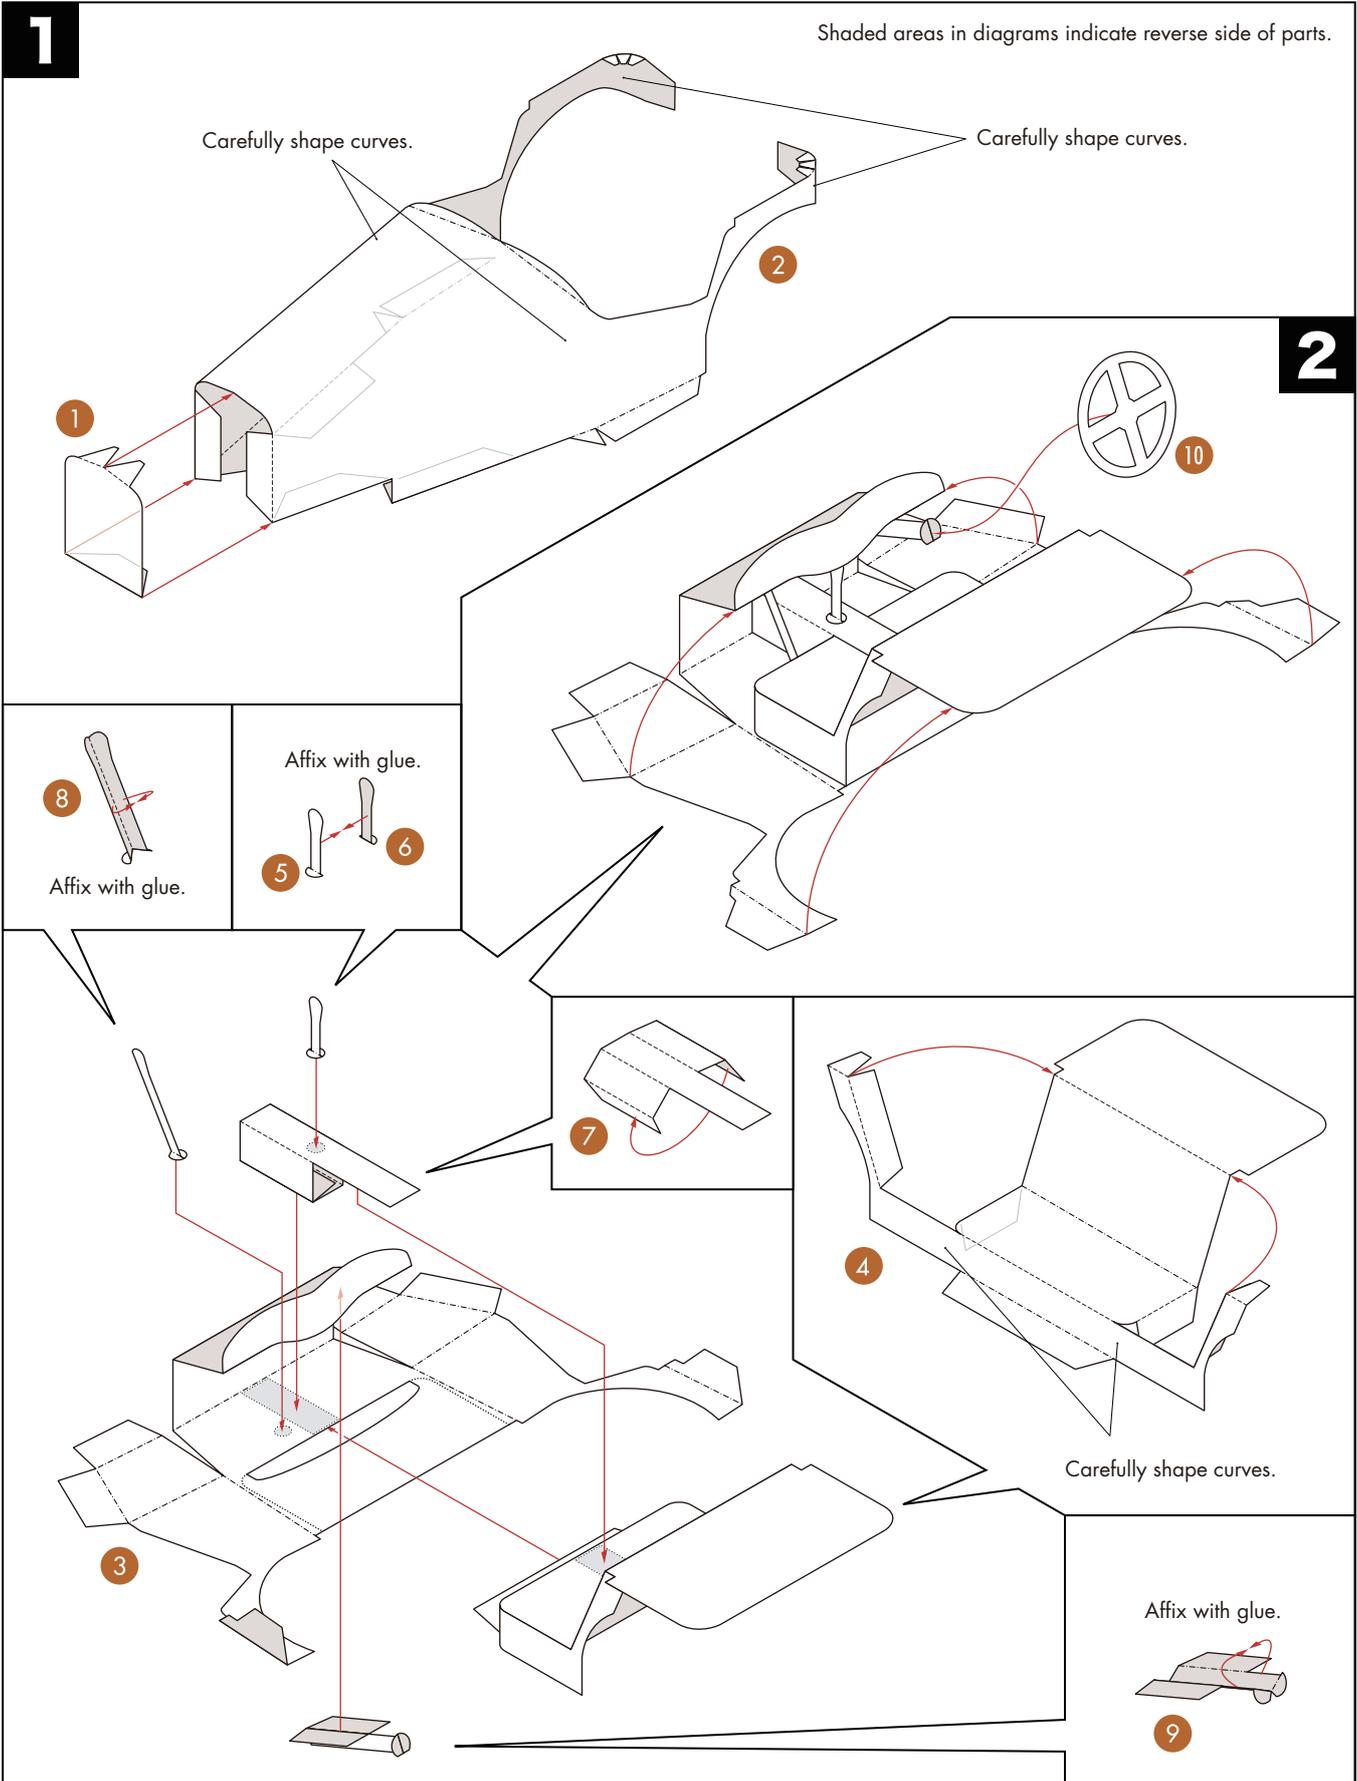

- Scissors
- Ruler, Set square
- Glue (Wood glue or craft glue recommend)
- Exhausted ballpoint pen (out of ink)
- Toothpicks (for use in applying glue)
- Tweezers (useful for handling small parts)
- Pencil

Key to symbols

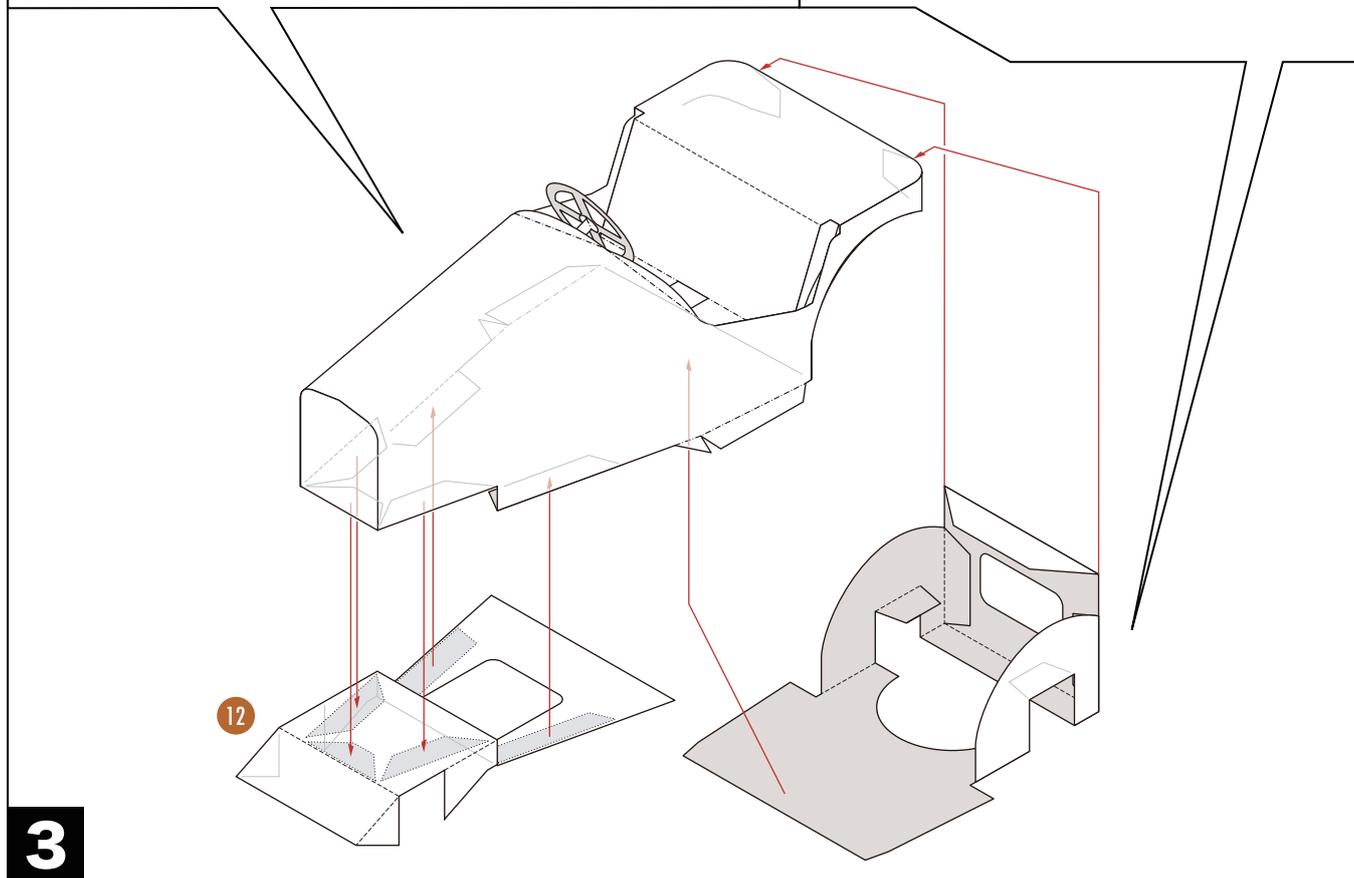

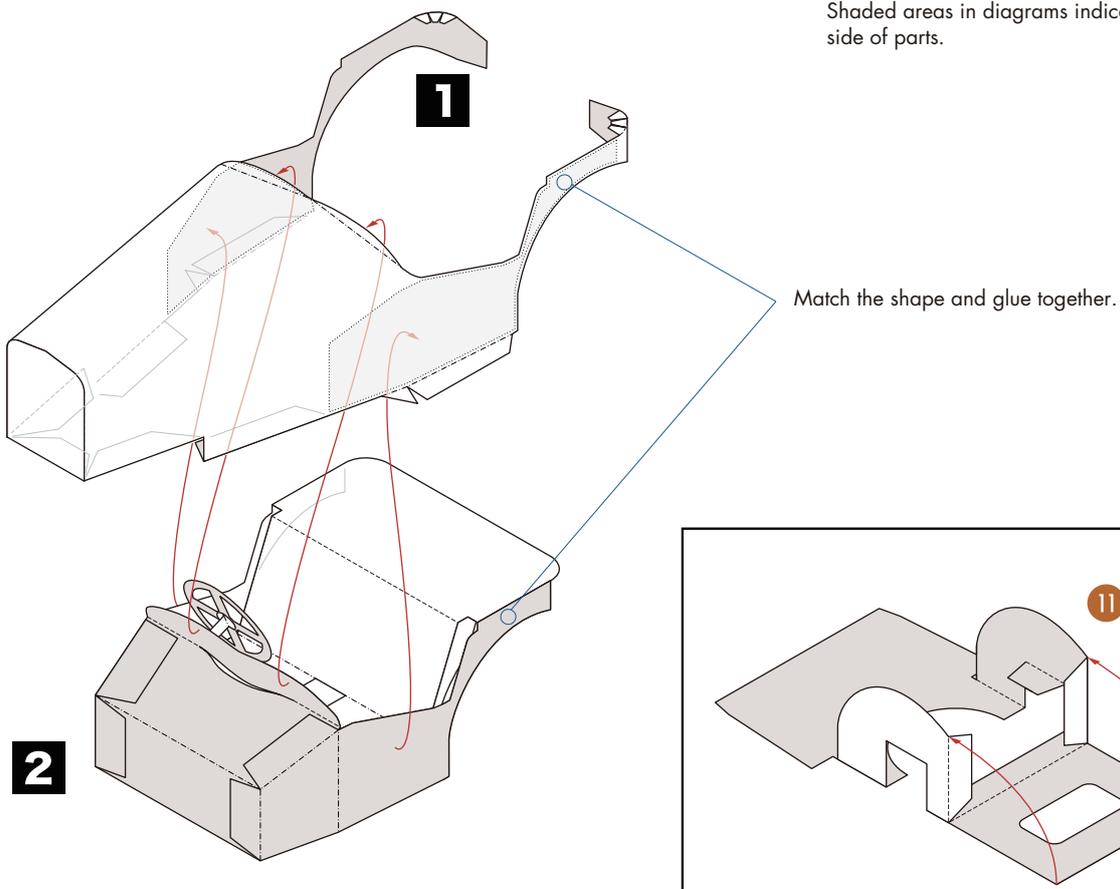

<p>----- Dotted line</p> <p>----- Dashed and dotted line</p> <p>----- Solid line</p> <p> Scissors mark</p>	<p>Mountain fold</p> <p></p> <p>Valley fold</p> <p></p> <p>Cut a notch along this line.</p> <p></p> <p>Cut a notch along the line.</p> <p></p>	<p>Fold so that the printed pattern faces outside.</p> <p>Fold so that the printed pattern faces inside.</p> <p>Cut along the center of the line.</p> <p> Cut these areas out.</p>	<p></p> <p>Dots indicate parts to be glued; dotted lines indicate approximate area for application of glue.</p> <p>● Red dot Glue parts with the same number together.</p> <p>● Green dot Glue areas within the same part together.</p> <p>● Blue dot Glue to the reverse side of the specified part.</p>

Shaded areas in diagrams indicate reverse side of parts.

Affix with glue.

4

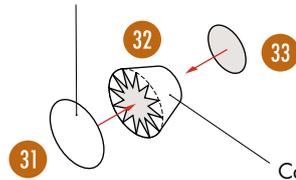

Affix with glue.

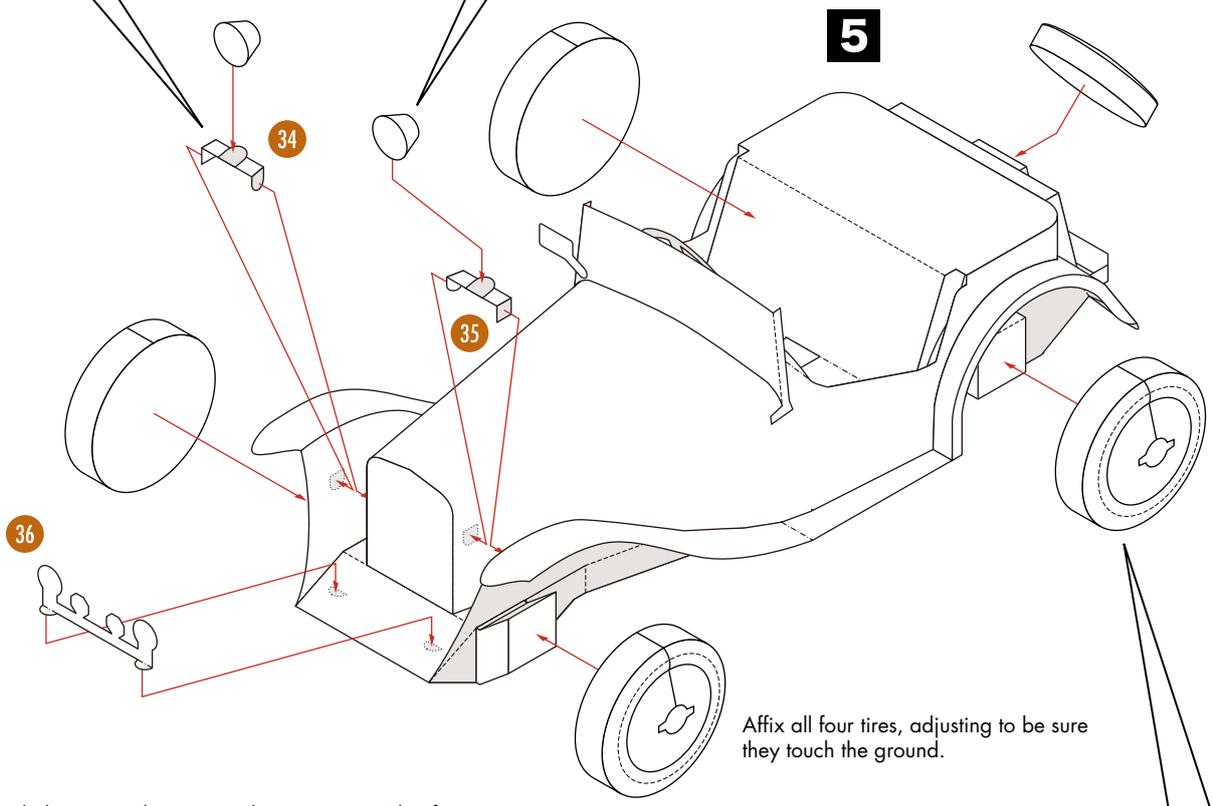

The shapes of the pasting margins of the left and right are different. Use the differences to decide the assembling locations.

Confirm top/bottom before gluing.

Carefully shape curves.

6

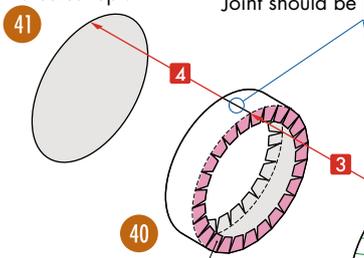

Affix all four tires, adjusting to be sure they touch the ground.

Shaded areas in diagrams indicate reverse side of parts.

Glue in order, **1 - 4**.

Arrow indicates 'up'.

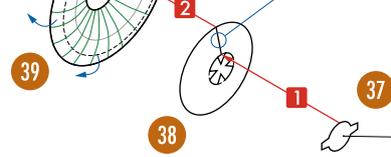

Joint should be positioned at the top.

Pink flap indicates outer side.

Affix outer surface of tire like a bowl, then wait until glue is dry before gently pulling the tire into shape.

Joint should be positioned at the top.

Confirm top/bottom before gluing.
